# Designed to last

Introduction

**Our products are at the cutting edge of design and feature first class engineering and workmanship, extensive tooled investment and incorporate only the finest materials and components.**

Introduction

## Boss Sustainability Strategy

We believe in products that are built to last. It makes sense for us and it makes sense for the planet. We have a responsibility to limit the impact on the environment ensuring our products stay relevant and we use responsible, quality materials that will withstand the test of time.

We have always invested in design, our established in-house design studio with designers and engineers working closely together, means we can shape the design processes all the way from initial idea to the final product with a holistic and collaborative approach to sustainable product development.

### CO<sup>2</sup>

We measure, monitor and control all our CO<sup>2</sup> emissions across the business, from road and air miles to the carbon footprint of our products. We are working to become a truly

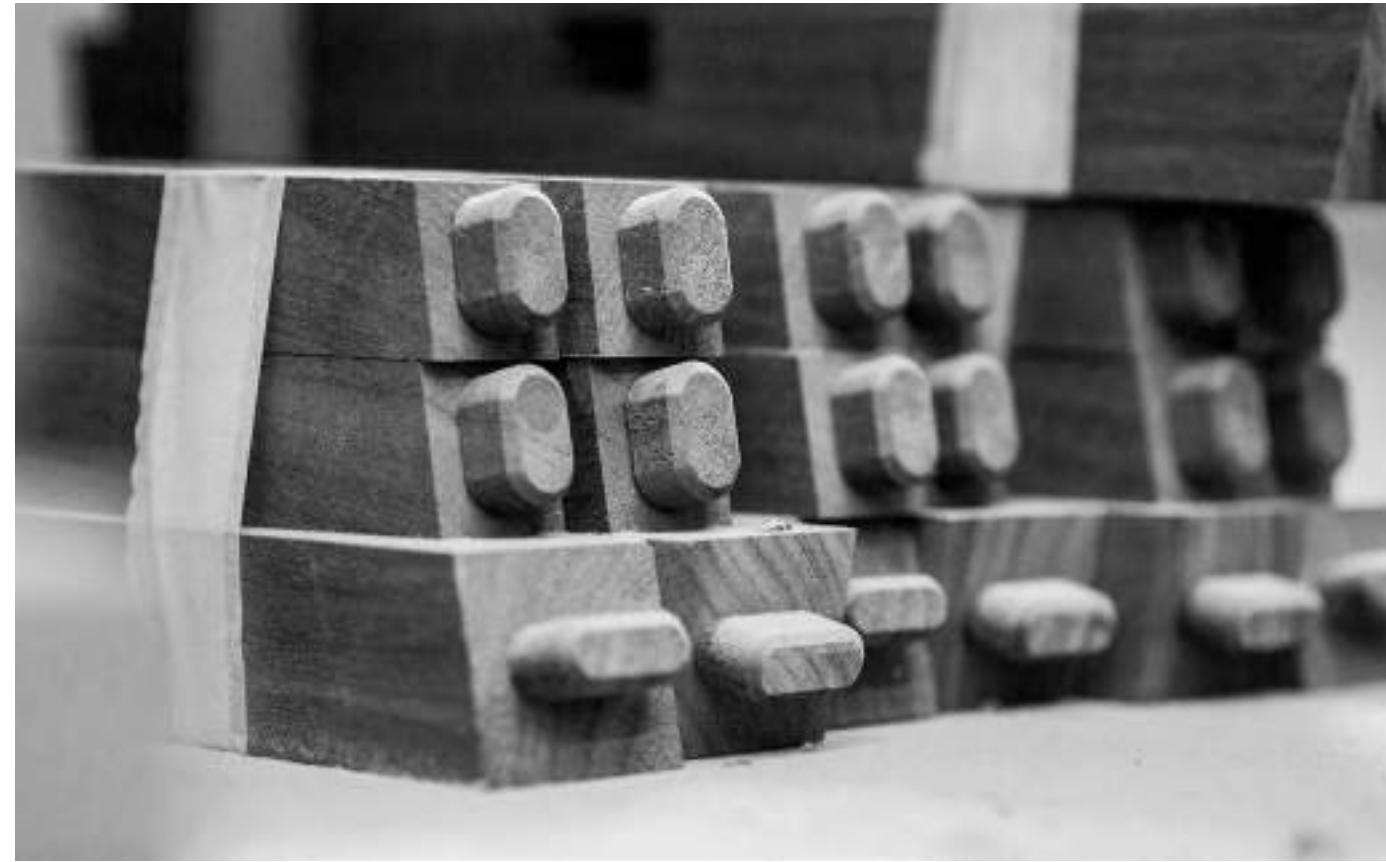

Carbon Neutral manufacturer to minimise our impact on the environment for future generations.

### VOC

Our VOC certification confirms that we manufacture low-emitting furniture in-line with LEED, BREEAM, Well Building Standard and Healthy Hospitals Initiative. Our efforts have been rewarded with the Gold International Standards from BIFMA. ANSI/BIFMA M7.1

### End to End

Our partners, Waste to Wonder, enable us to divert thousands of tonnes of equipment from landfill and equip hundreds of schools and good causes in 18 countries with office equipment. We are always looking for new and innovative ways to reduce our carbon footprint in a sustainable and socially beneficial way.

### Waste

Our lean manufacturing process means we have zero waste to landfill across our facilities. All our waste materials are either reused internally or through our local social schemes, anything that can't be reused we recycle.

**“We have big ambitions for protecting our environment through sustainable manufacturing and creating a better society to live in.”**

# UK. USA. UAE. APAC.

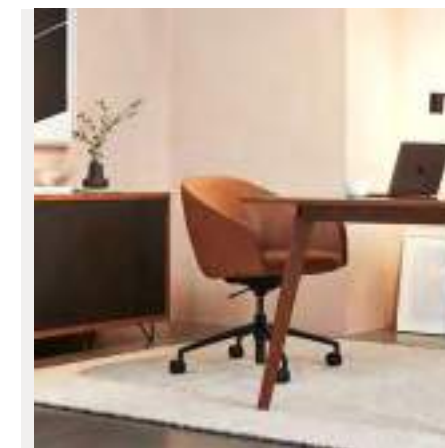

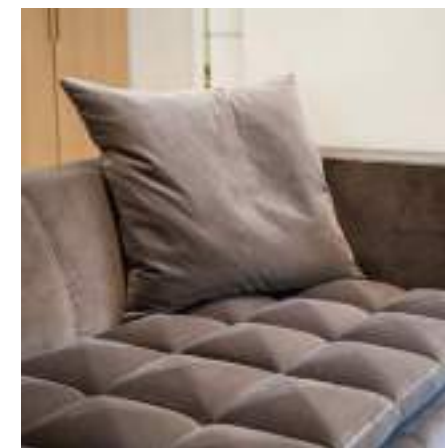

## A Global Reach

Our international manufacturing pedigree started life from our plant in Dudley, UK. Boss now operate across five continents, with four strategic production facilities located in the UK, North America, the Middle East, and the Far East, offering in excess of 150 product ranges. Each with the same commitment to sustainably manufactured, quality products.

Boss showrooms are strategically located in four prestigious locations in London, Manchester, Chicago and Dubai; further extending our global

reach and reputation, helping us deliver on a global scale and bringing our unique vision, quality and product innovation wherever you happen to be.

We are trusted by some of the the biggest brands in world, delivering product into schemes across the Financial Services, Aviation, Automotive, Tech and Hospitality sectors. We know our product is an extension of their brand and we take that responsibility very seriously.

Introduction

## What we can offer you.

### Bespoke Design

We can offer a complete furniture design experience, designing and creating pieces that are tailored to suit your brand style and design requirements. As an agile furniture design and manufacturing business, designing and creating pieces that are tailored to suit your brand style and individual requirements, is what we do. No matter what type of furniture you might need, whether it be dining chairs, coffee tables or a beautifully refined piece of upholstery, we have the expertise to realise a unique piece for you.

### 3D Assets & pCon Library

We have a full suite of 2D and 3D assets available in: Revit, 3DS, 2&3D DWG and SketchUp, which are instantly downloadable from our website, or via our Global Dropbox Resource Library that you can request access too.

Additionally, we have committed to bringing our entire product portfolio to the pCon platform, starting with our most popular product ranges. Each month we plan to add more products to pCon in order to make

### Interior Styling & Floor Planning

We are able to offer you access to our Interior styling and floor planning team to help and advise you when creating a space for your client. Whether this is to simply aid your team with fabric choices or to space plan a full floor with suitable Boss product, our team are there to help.

Nobody knows our product like we do.

### Product Support & Literature

Presenting your concepts and ideas in a clear and concise way is often what can make or break a pitch. We have a suite full of pre configured presentation slides for you to use in your client pitches. Custom product slides can also be created for you.

To compliment our presentation slides, you also have full access to our supporting documentation such as environmental product data, product safety certification, product user guides & instructions or details of our environmental credentials & policies.

# Cotswold Motor Group

Cheltenham, UK

Boss Design

## Project Overview

Boss Design collaborated with Cotswold Motor Group to create an enhanced customer experience at the new flagship BMW/MINI retail centre in Cheltenham. Being one of the largest automotive retail centres in the UK and looking after over 170 staff on site, the centre, an amalgamation of the existing Cheltenham and Gloucester retail centres, has been designed with luxury, comfort and elegance in mind.

With the four-storey facility standing on almost five acres of land, the centre consists of a showroom, workshop area, admin offices and enhanced servicing facility with a customer café. The idea was to create an experience, a destination site for people to come to. With this, the quality and design of the brand needed to be reflected throughout the building, a key factor into why Boss Design were chosen for the project.
