ST ANDREWS

THE EDEN MILL PASSION | In 1810 the Eden Estuary was offering its crystal clear waters to the legendary Haig brothers, helping them distil and lay down some of St Andrews' finest whiskies. Before them this same site hosted the Seggie Brewery, known for their strong connections with local farmers and agricultural workers. In 2012, Eden Mill resurrected this fine brewing and spirits tradition with our own take on Scottish craft brewing and distilling. Eden Mill were Scotland's first single site brewery and distillery – we benefit from the best of local water sources, regionally grown barley and a dynamic, international team with some of the best education and experience the world can offer. Our distillers are at the forefront of experimental wood ageing and distillation methods to bring out more of the outstanding flavours found in our products.

LOVE GIN

The famous light blush Pink Gin from Eden Mill brings together an outstanding blend of local botanicals and exotic fruits.

ORIGINAL GIN

Eden Mill's award-winning Original Gin, also known as Eden Gin, is the St Andrews take on a classic London Dry. This gin was voted Scotland's Number One Gin at the 2018 Scottish Gin Awards, where 116 gins were blind-tasted!

Made from Fife's seabuckthorn berries, a super food that grows within walking distance of our St Andrews distillery. The unique tart berry flavour is abundant but we balance the gin around it using citrus elements drawn from the other botanicals (like lemon balm and citrus peel). This gin is on a quite different level to most. With the warmer weather fast approaching, this is ideal for you to share with friends over a summer barbeque. A perfectly sociable gin to enjoy outdoors with friends and family. Original gin has a very clean and sweet taste. This is the perfect gin to make a classic gin & tonic so the first question is – how will you enjoy yours?

LOVE GIN LIQUEURS

At Eden Mill, we love experimenting with different flavours and finding inspiration in unexpected places. Lately we've been reminiscing over summers gone by, with hazy memories of holidays, sunny picnics and plenty of treats serving as the ultimate inspiration for our Love Gin Liqueurs. First came Raspberry, Vanilla & Meringue, where we combined Vanilla, Juniper, Goji berries, Rose petals and Scottish Raspberries - and of course, our own Love Gin - to create an outrageously decadent liqueur that made us think of ice cream on a summer day. This was so well received, we decided to dream up some companions for it. For Spiced Rhubarb Crumble, we brought together Rhubarb, Vanilla and Ginger to create a delicate, silky liqueur. The tart kick of Rhubarb with the creamy sweetness of Vanilla custard will remind you that there's always room for dessert! Completing our trio is our Mango & Pineapple, in which tropical fruits combine to whisk you away to sunnier climes - an island paradise in a glass.

Aurum ABV 4.3%

In our home county of Cumbria Aurum has become our most famous beer, loved for its refreshment and flavour. We use a hand-picked selection of continental hops to make a gold that stands out for its distinctive taste and beautiful colour.

The name of our traditional English IPA is inspired by King Edward VII, the first British Emperor of India. We personally select a blend of English hops to create an India Pale Ale like it used to be - distinguished, subtle and full of class.

Traditional English Ales

When we began brewing we set ourselves a challenge: To make sure every beer demanded attention, that every beer was different, just not a slightly altered copy of another beer. Our English ales are therefore individual, and never boring.

Fuggles ABV 3.8%
Fuggles is a classic English hop. But when it comes to our beer, quality is everything. That's why we made the sacrilegious decision to use French-grown Fuggles in this single malt, hop ale. Enjoy the delicate flavour and aroma of Fuggles in a beer of real depth and character.

Cracker ABV 4%
Our quintessentially English bitter pays homage to a great British hop, English Challenger has become one of the most popular hops among brewers, loved for its mellow, rounded bitterness and gentle fruit flavours. Cracker brings Maris Otter and Crystal malts together with Challenger to draw out its subtle intensity.

Beacon ABV 4%
Beacon has a special place in our hearts as the first beer we ever brewed. We'll be honest, in the beginning it was far from 'the best' at all. But three brews later we had perfected our gorgeous, light chestnut bitter. A delicate mixture of English hop varieties come together to create what we call "the best of the best".

Reiver ABV 3.6%
A classically easy drinking English pale in style, supercharged with flavour by continental hops. We bring the refreshing fruitiness of Slovenian Styrian Wolf and Mandarina Bavaria hops together on a solid foundation of Maris Otter and Cara malts. The result is a delicious easy-drinking session ale.
