OUR STORY

A FAMILY AFFAIR

A family owned and run business that started life many years ago in the kitchen of Euan and Fiona MacEachern in Luss, on the shores of Loch Lomond.

Now producing a number of multi award winning beers in numerous formats in Scotland, throughout the UK and overseas into N America, Europe and Asia.

A real passion for all things beer with a philosophy to make the award winning beers as accessible as possible for beer fans all over the world.

OUR BEGGININGS

CASK ALE

Originally a one woman band brewing once a week out of the traditional British brewing kit that served us well in our first 8 years of production winning many

accolades and fans along the way. Our first efforts were cask beers, some of whom still feature today in our portfolio. Moving into bottled beers and finally

kegs and cans with an ever expanding team. It is in the last couple of years that we have seen most of the growth thanks to our 2018 crowdfunding investors

OUR NEW BREWERY

MIXING MODERN AND TRADITIONAL

We replaced our 10bbl traditional British kit for a semi automatic 20bbl brewing system that gives us the option to brew 3 times per day with relative ease.

A total capacity of 200bbl per week are available and along with our in-house canning system, kegging and casking facilities we are completely self sufficient

operating out of a modular industrial site allowing for further expansion. Just a few miles from our original site by the Shores of Loch Lomond.
