

Montrose Chocolate Ventures is the sister company of Stoke-on-Trent based family chocolatiers Daniel's Delights, who have been producing premium chocolate products since 2007.

The business owns and manufactures premium chocolate brands, including Danny's Chocolates, Benefit Chocolate and Cox&Co. Each brand is distinctive in its proposition and market position, and has been developed with real craft and care using the finest single origin cacao.

This focus on delivering superior product quality is of primary importance for Montrose Chocolate brands. We support a fully sustainable 'Farm to Bar' supply chain, which is achieved through our strategic partnership with the CasaLuker estate in Colombia, making it possible to have both ethical and superior tasting chocolate. This, combined with true artisan roots and growing consumer demand, sets the basis for strong future brand growth.

Family made chocolates, making mischief since 2007

A range of fun and quirky flavours with a base of the best tasting chocolate around. Evoking childhood memories for Mums and Dads and exciting their kids is what the Danny's brand is all about.

- Made in Stoke-on-Trent in the family's chocolate factory
- Evoking a family-friendly image, that speaks to kids and big kids alike
- Wide appeal to children as well as their parents
- High cacao content vs. mass market brands
- Fun, friendly, quirky with a focus on quality, care and a bit of healthy mischief

Danny never settles for second best and there's no way you should either. He uses only the most mouth-watering, Colombian cacao in his chocolate.

He sets the same high standards for anything else that finds its way into his weird and wonderful concoctions. So sit back, relax, recline and prepare to drift away on a chocolate-coated cruise of a lifetime. Bon voyage, you lucky little urchins!

Award winning chocolate with good intentions

We have enriched 85% single origin cacao sourced directly from the CasaLuker estate in Colombia with a range of specific benefits including 12 vitamins, a natural energy boost and plant protein.

Suitable for vegan diets and with a third of the sugar of milk chocolate, Benefit really is a guilt-free indulgence you can feel good about enjoying.

The key benefits of cacao include:

- Higher levels of antioxidants than many fruits including blueberries
- High in flavanols that help improve blood flow
- High cacao products contain lower sugar levels than standard cacao content chocolate
- A source of high fibre (12g per 100g in 85% cacao)

The handcrafted Benefit Chocolate proposition is unique to the UK and European market.

Cox&Co is a range of single origin, farm to bar cacao blended with complimentary superfoods to give you a truly unique chocolate that places taste and sustainability at the heart of everything we do.

Our founder, Gavin Cox, spent much of his younger years in the same place that all of our cacao is lovingly grown; in South America. So when developing Cox&Co, he knew that to create the best tasting chocolate, above all else he had to use the best cacao in the world, which meant working with CasaLuker to ensure our chocolate is traceable and tastes incredible.

Harnessing unusual ingredients that have fast-growing consumer awareness, such as bee pollen and chia, some of nature's most interesting flavours, Cox&Co establishes itself as a range that stands out in the market; using trending ingredients that provide timeless chocolate.

Meet growing consumer demand for unique and interesting flavours with provenance.

Premium fully recyclable packaging ideal for gifting as well as a treat for those seeking something really special.

The Cox&Co range...

Raw Cacao Nibs, Coconut & Chia, Bee Pollen & Honey, Single Origin Pure Cacao

Available in 35g & 70g bars and 120g Sharing Shard pouches.
