About Us

AISR
B-STEM

AISR

The Academy for International Science and Research (AISR) will provide the specialist science modules for this programme. AISR is the first private Academy delivering STEMM vocational skills in UK and Ireland.

AISR has gained the ISO 9001:2015 International Standard for Total Quality Management and [ASIC](https://www.asic.org.uk/uk-directory/) accredited status, which is world renowned accreditation services recognised by the UK government (<https://www.asic.org.uk/uk-directory/>). AISR continues its trend as a world leader in educational delivery and innovation. We have signed an MOU with the Nigerian government, the Federal Ministry of Science and Technology. We are delivering STEMM based courses and working with the National Centre for Technology Management (NACETEM), an agency of the Federal Ministry of Science and Technology, Nigeria, to develop the educational infrastructure of Nigeria.

Already, over 20 Colleges of Health Sciences and Technology including Lagos State College of Health Sciences and Technology, have been approved as our Medical Research and Support Centres, but currently going through accreditation, to deliver world class education in Science, Technology, Engineering, Mathematics and Medicine (STEMM).

Course Overview

Start Date: September 2020

Duration: 9 months

Hours per week: 25 hours per week

Course Fee: £420

The MediPath Programme is a 9-month programme designed to prepare aspiring medical, allied medical professions, nursing, pharmaceutical and dentistry students for application to Nigerian Universities.

It provides:

- Facilitating application to all Nigerian universities
- Expert guidance on personal statements & interviews
- Level 4 Diploma in Principles of Science and Mathematics for Medical Sciences
- Level 5 Diploma in Medical Sciences in preparation for 1st year undergraduate study

Modules of Diploma in Principles of Science and Mathematics for Medical Sciences:

- Physical Chemistry
- Physical Science
- Organic Chemistry
- Inorganic Chemistry
- Principles of Public Health for Medical Professionals
- Mathematics
- Cell Biology

Modules of Diploma in Medical Sciences:

- Biochemistry and Human Nutrition
- Cell Biology
- Communications and IT for Applied Sciences
- Evidence-Based Professional Practice
- Human Physiology and Anatomy
- Biology and Disease

SCAN ME FOR INFO

The MediPath Programme comprises of two Diplomas:

- Level 4 Diploma in The Principles of Science and Mathematics for Medical Sciences,
- Level 5 Diploma in Medical Sciences

A Level 4 Diploma on the Regulated Qualifications Framework (RQF) is equivalent to an undergraduate degree level, while a Level 5 Diploma equates to year 2 of a Bachelor Degree.

The MediPath Diploma is accredited by the Manipur International University (MIU), the University of Excellence in India, and AISR is a constituent polytechnic College of MIU.

The two Diplomas are:

1. Level 4 Diploma in The Principles of Science and Mathematics for Medical Sciences has been developed to provide a basis on which learners can then progress onto the Level 5 Diploma in Medical Sciences. The course will provide a clear understanding of the principles of physical and mathematical sciences. The qualification is primarily targeted at learners who wish to gain a more in-depth knowledge of the subject areas, develop new skills and progress onto the Level 5 Diploma in Medical Sciences.
2. Level 5 Diploma in Medical Sciences is primarily targeted at learners who have an understanding of the principles of medical and/or biological sciences and who wish to gain a more in-depth knowledge of the subject area skills. The qualification will provide a basis on which learners can pursue a career and/or further specialist training in health and social care and/or medical sciences.

The MediPath Programme will be delivered at AISR partner centres throughout Nigeria.

Course Details

Entry Criteria for MediPath

- Minimum age requirement is 17 years old
- Level 3 qualification with science and mathematics subjects with a "C" grade from one of the qualifications below:

- GCE
- A-Level
- National Diploma
- Ordinary National Diploma
- Diploma
- WAEC
- NECO
- NABTEB

PROGRESSION INFORMATION

The MediPath Diploma provides a basis on which you can progress into further education in specialist medical science related areas such as nursing, the allied medical professions, pharmaceutical, dentistry, radiography etc.

Satisfactory performance in the Health Care Professionals Entrance Test is also required. This selection test has a strong focus on general skills and personal abilities. It does not test knowledge of the basic sciences, but it is designed to assess aptitude for study in the Health Care Professions. Please note that there is a cost to undertake the test.

GET A MEDICAL DEGREE AND THE WORLD IS AT YOUR FEET

THE MEDIPATH PROGRAMME IS AN EXCITING AND DYNAMIC PATHWAY, WHICH WILL OPEN THE DOOR OF OPPORTUNITY AND TRANSFORM YOUR MEDICAL DREAMS INTO REALITY.

COME AND STUDY WITH AISR, WE WILL GET YOU THERE!
