Export 2020

Our selection of artisan products made in our bakery in Derbyshire, England.
Each of these ranges are available to order from our New Jersey inventory.

MILLER'S ELEMENTS®

The first ever concept-led range of crackers that raises the bar in the cracker market.

A trio of Miller's crackers designed to represent three of the classical Greek elements: Earth, Fire and Water. Each element is as unique and distinct as you would expect.

Miller's Earth has a cracker base as easily crumbled as earth itself, with a texture that melts in the mouth.

Compare this with Miller's Fire, a red hot cracker that more than lives up to its name, composed as it is of oak-smoked flour and fiery chilli, which is coarse and rugged in texture.

Lastly, Miller's Water is a cool contrast – the simplest and best water cracker available. Made from just flour and water. Nothing else. Versatile, with universal appeal and elegant simplicity.

MILLER'S ELEMENTS FIRE CRACKERS

ABME002 3.5oz

Oak-smoked flour and red hot chilli in a cracker that more than lives up to its name. Smoky and fiery, with a coarse and crumbly texture.

MILLER'S ELEMENTS EARTH CRACKERS

ABME004 3.5oz

We sourced potatoes to create a cracker base as friable as earth itself, with a texture that first crumbles then melts in the mouth. We added beetroot and spinach to give our cracker an earthy sweetness.

MØR SNAP CRACKERS

The Norwegian taste of tradition.

They do things differently in Norway.

They like their traditions and the beauty of simplicity... taking the time to do things carefully and with attention to little details. There can be no better example than the way they make traditional snap crackers (Knekkebrød).

In Norway, they call it 'baking with a tender heart'. Hence the name MØR Hjerter Bakeri. Snap crackers made in a time-honoured fashion, from only natural ingredients.

Here traditional recipes have been crafted and honed, and presented in appealing and eye-catching packaging designs that depict scenes of beauty found throughout Norway.
